

A Community Garden

The Association, in partnership with Govanhill Community Development Trust and GREAT Gardens, commissioned a feasibility study to look at the possibility of developing the Association's vacant site adjacent to Samaritan House (behind the Ambulance Depot on Butterbiggins Road) to a community /allotments garden.

The proposals have now been submitted to Glasgow City Council for Planning Consent and we are applying to The Big Lottery's 'Community Spaces' Fund for a contribution to the costs of developing the site. Watch this space!
